HabaCHAIN®

Habasit – Solutions in motion
Features and Benefits

• High Tensile Strength: less downtime, maximize conveyor line layouts.
• World Class Quality: insures optimum product handling.
• Low Friction Materials: excellent for high speed applications.
• Bevel Edges: product stability over multiple strand conveyance.
• High Friction Inserts: unique product conveying solutions.
• Wide Range of Specialty Materials: total coverage for all your application needs.

Innovative patented products from Habasit:
• Multi-hub sprockets and idler design: unique design concept allows for separating the tooth segment from the hub/bore insert. This provides flexibility to optimize inventory while reducing carrying cost.
• 7100 chain design: increased versatility through a two-piece chain.
• Low-backline Pressure (LBP) solution: reduced back pressure, noise reduction, better load stability and reduced vibration.
• Insert of special sliding block for LBPs in place of the intermediate shaft: better stability, noise reduction, low product residual push.
• Unique magnetic solution for improved tracking: noise reduction, better cleanability.

Features and benefits:

• High Tensile Strength:
• World Class Quality:
• Low Friction Materials:
• Bevel Edges:
• High Friction Inserts:
• Wide Range of Specialty Materials:

The HabCHAIN® product line

The HabCHAIN® product line is designed, produced, and serviced by a worldwide leader in conveyor belting—Habasit. HabCHAIN® products offer world class quality and innovation combined with excellent reliability and cost efficiency.

Habasit’s knowledgeable engineering staff are available to assist you with all your application needs. Habasit engineers will provide assistance with:

• Selection recommendations
• Application engineering evaluations
• Product performance analysis
• Product handling evaluations
• Retrofit / Crossover recommendations
• New product development opportunities

Industries served

• Beverage• Canning• Bakery• Snack foods
• Meat - poultry - fish• Packaging• Dairy
• Electronics• Pharmaceuticals• Automotive
• Materials handling• Cardboard• Tissue• Textiles

Global expertise

With over 60 years of experience in the conveying industry and the most innovative and largest product line offering, Habasit is a leader in the conveyor belting industry worldwide. Habasit is dedicated to meeting your conveying needs with state-of-the-art, high quality products and services.

Innovative patented products from Habasit:

• Multi-hub sprockets and idler design: unique design concept allows for separating the tooth segment from the hub/bore insert. This provides flexibility to optimize inventory while reducing carrying cost.
• 7100 chain design: increased versatility through a two-piece chain.
• Low-backline Pressure (LBP) solution: reduced back pressure, noise reduction, better load stability and reduced vibration.
• Insert of special sliding block for LBPs in place of the intermediate shaft: better stability, noise reduction, low product residual push.
• Unique magnetic solution for improved tracking: noise reduction, better cleanability.

Application / Engineering support

Habasit’s knowledgeable engineering staff are available to assist you with all your application needs. Habasit engineers will provide assistance with:

• Selection recommendations
• Application engineering evaluations
• Product performance analysis
• Product handling evaluations
• Retrofit / Crossover recommendations
• New product development opportunities

Industries served

• Beverage• Canning• Bakery• Snack foods
• Meat - poultry - fish• Packaging• Dairy
• Electronics• Pharmaceuticals• Automotive
• Materials handling• Cardboard• Tissue• Textiles

Flexible Chain Solutions Tailored to Your Needs

Your solutions partner

Habasit is committed to understanding your design parameters and application needs. After reviewing your requirements, our engineering staff will suggest the best solution for each application.

Quick Ship Program
The Quick Ship Program represents a selection of chain that is in stock and ready to ship immediately. If you order by 1:00pm EST, Habasit will ship it the same day with no expediting fees. For complete product availability, please contact Habasit today.

- Prompt shipping
- Guaranteed in stock
- Quality products
- On-time delivery
- Tested and proven products

Slat Top Steel Chains and Snap on Chains are available. Please contact Customer Care for more details.

Low Friction
Habasit’s “Low Friction” chain material delivers friction properties that meet or exceed those offered by other high performance materials at a premium price. This allows customers to optimize performance at a competitive price so the savings go right to your bottom line.

Multi-Hub
Habasit’s Patented Multi-Hub Split Sprocket and Split Idler Wheel design allows customers the flexibility to interchange sprocket tooth and idler rims with a wide variety of hub inserts. They are available with various bore sizes and configurations which provides flexibility to optimize inventory while reducing carrying cost.

1. Complete Multi-Hub Split Sprocket
2. Interchangeable Multi-Hub Split Idler Wheel Rim
3. Interchangeable Multi-Hub Split Sprocket Tooth Rim
4. Interchangeable Multi-Hub Insert with round bore, keyway and setscrew for drive sprocket applications
5. Interchangeable Multi-Hub Insert with plain round bore for idler sprocket applications

Product Testing
Habasit has invested heavily to make sure our chains exceed industry standards. The quality that you have come to expect from Habasit can be found in our chains. Habasit insures the highest quality chains through rigorous testing at the Habasit Innovation Center. These tests include:

- Long term friction test
- Noise test
- Radius pv-limit test
- Dynamic sprocket test
- Dynamic fatigue test
- Inclined angle measurement
- Inclined test loop
- Lifetime and abrasion test
- Impact test

Over Molds
Habasit’s over mold capability allows us to provide high friction inserts in a wide range of profiles to support your conveying application needs. These high friction inserts are molded directly into the chain for optimum performance and durability.

Habasit’s high friction inserts are available in different hardness and can be adapted to almost any Habachain® style to handle the following applications:

- Inclines
- Declines
- Case/product turning
- Case/product orientation

For further information on availability of standard or custom inserts, please contact Habasit.

High Quality Chain

Customers first
At Habasit we understand that our success depends on your success. This is why we offer solutions, not just products; partnership, not just sales. Since our foundation in 1946, Habasit has brought this understanding of customer needs to life every day and for every application. That’s why we’re the No. 1 in belting today. Worldwide.

Committed to innovation
Habasit is strongly committed to the continuous development of innovative, value-added solutions. Over 3% of our staff are dedicated exclusively to R&D, and our annual investment in this area exceeds 8% of turnover.

Certified for quality
We deliver the highest quality standards not only in our products and solutions, but also in our employees’ daily work processes. Habasit AG is certified according to ISO 9001:2000.

Worldwide leading product range
Habasit offers the largest selection of belting, conveying, processing and complementary products in the industry. Our response to any request is nothing less than a specific, tailor-made solution.
