HabasitLINK® Micropitch Modular Belts

The most flexible and reliable tight-transfer modular belt solution available

Micropitch is a unique belt system suitable for high-end conveyors when the transfer of small footprint, unstable and delicate products is required.

- **M0870 Flat Top**
  The smooth belt surface ensures reliable product transfer and accumulation

- **M0873 Non Slip**
  For excellent soft product control and release

- **M0885 Flush Grid**
  The belt’s proven and unique tight transfer capabilities now have new draining and cooling features suitable for most baking and food processing applications
HabasitLINK® Micropitch belts

Key features

- Minimal possible 3 mm radius knife edge transfer with plastic modular belts
- 0.3” (8 mm) belt pitch, minimal pitch with rod technology
- Smooth belt surface (M0870 Flat Top)
- Proper alignment of small products
- Positive engagement
- Non slip surface (M0873 Non Slip)
- M0885 Flush Grid with 34% open area, and 82% open contact area
- Available in PA material
- Superior sprocket engagement for bi-directional drive

Your benefits

- Tight transfer
- Dead plates can be eliminated
- Smallest pitch combined with robustness
- Smooth running belts
- For optimal product transfer and accumulation
- Less product damage
- Elimination of tracking issues
- Reliable product movement
- Ideal for cooling and draining
- High temperature resistance
- Unique in the industry
