Habasit America Services

Local support, faster response.

Habasit America's service offerings keep your lines running with responsive local support. With five service centers across the U.S., we provide regional coverage that cuts downtime and helps you quickly recover from line stoppages.

Habasit's service team is well-rounded. They not only install and service the belts, but they often have a hand in fabricating them. They leverage this knowledge to properly install belts, provide ongoing service, and deliver in-house training.

Here's why you should choose Habasit:

24/7 Emergency Support

Expert Belt Installation

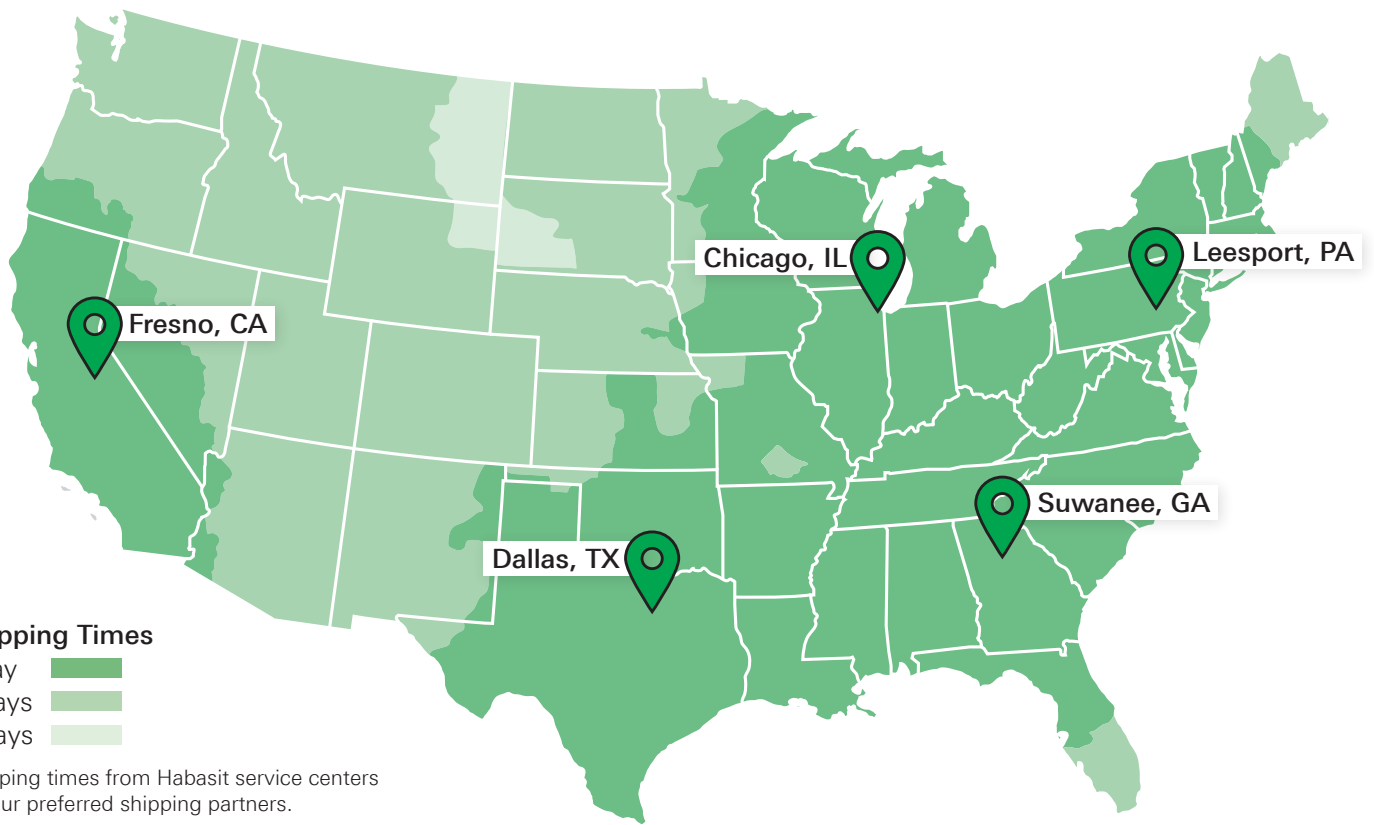

Tailored Training

Detailed Belt Inspections

Nationwide Service Centers

Service Offerings

24/7 Emergency Support

Your production runs on deadlines. Our support runs around the clock. We offer 24/7 emergency belt service to get your line back in motion.

- On-call service when you need it most
- Reduce downtime and keep your production on schedule

Installation

Habasit technicians will professionally join your belt so you can run with confidence. Installation support is also available to help ensure a smooth, reliable startup.

- Professional belt vulcanization
- Belt stringing, plus belt tensioning and tracking assistance
- Reclaim your team's time while we handle the joining and installation

Tailored Training

Help your maintenance team build confidence with hands-on training. This includes guided practice with presses and belt samples, along with practical instruction that your team can apply on the plant floor. This is tailored for:

- Facilities onboarding new maintenance personnel
- Teams that want to strengthen in-house belting skills
- Operations that recently purchased a Habasit press
- Maintenance teams that need help identifying or cross-referencing belts

Inspections

Spot issues before they impact your line. Our technicians will inspect your belts and recommend whether repair, replacement, or other corrective action is needed.

- Identification of wear, damage, or potential problem areas
- Repair or replacement recommendations when needed
- Helps avoid unexpected downtime and costly disruptions

Service Contracts

Habasit service contracts provide a flexible way to access the support you need. Contracts can be tailored à la carte and include services mentioned above.

- Flexible service options based on your facility's needs
- Optional stocking of preferred belts for faster response
- Contracts available on a quarterly, semi-annual, or annual basis
