

Habasit Spiral Smart Link

Your spiral belt guardian

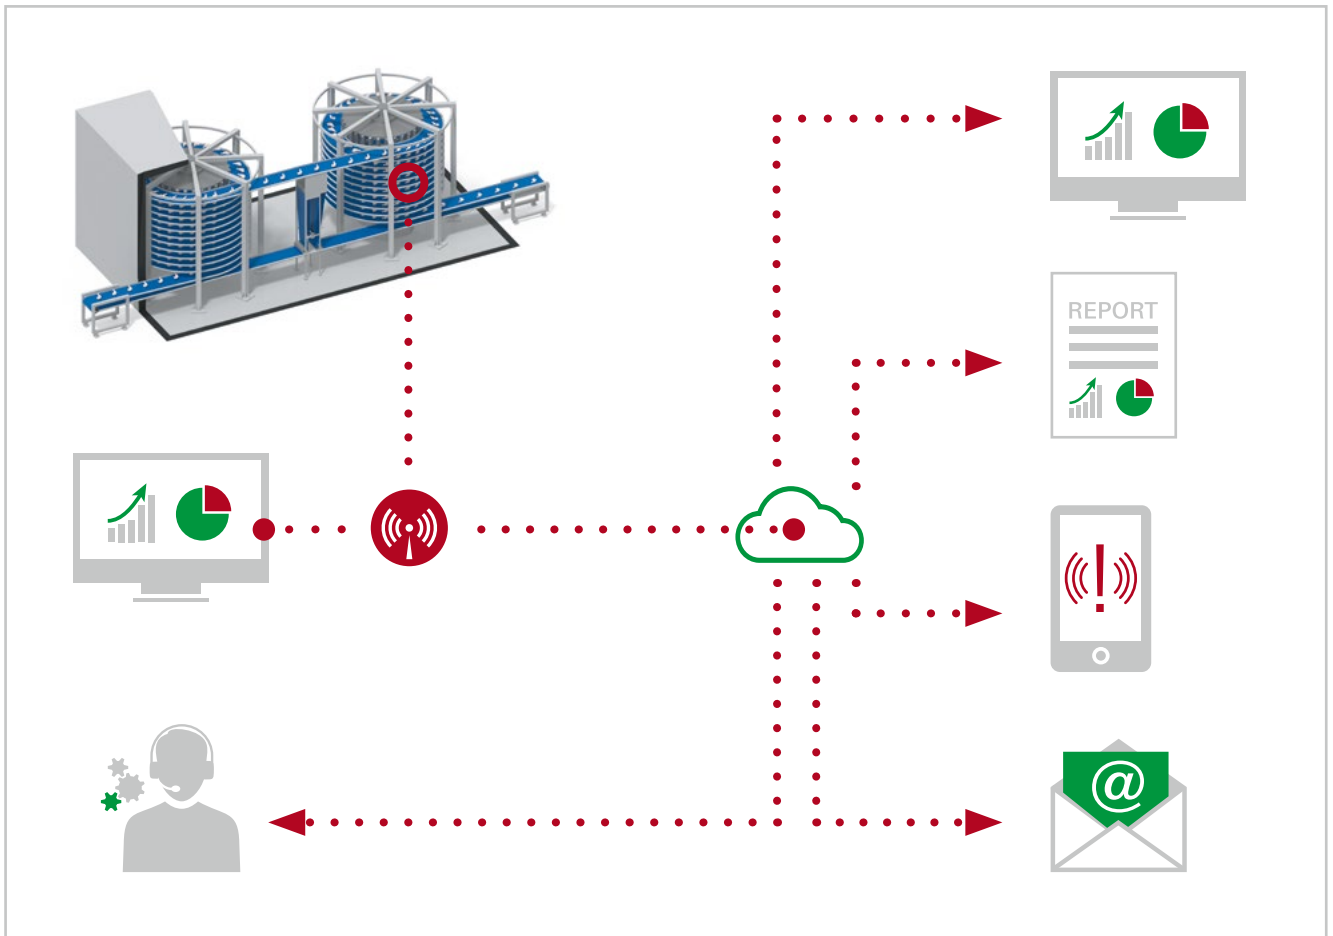

Smart Link is the real time Habasit spiral conveyor belt monitoring system.
The device allows you to:

- Monitor belt tension
- Perform nonstop diagnostic activities
- Prevent sudden downtimes
- Improve scheduling of cleaning and sanitation activities
- Increase belt lifetime
- Reduce total cost of ownership
- Obtain on-site and remote support from Habasit spiral specialists

It measures and wirelessly transmits the belt tension data to an external unit, or to a web platform available 24/7 worldwide.

Habasit Spiral Smart Link

Your spiral belt guardian

The Spiral Smart Link package includes:

- Monitoring device totally embedded into the belt
- 24/7 worldwide access to Customer dedicated web portal where live data, statistical analysis and reports are available
- Push alert notifications (via email and SMS)
- Support and on-site assistance from the Habasit Spiral Technical Team

Spiral Smart Link will be available for new, as well as for existing, spiral conveyors.
