

High-Performance Steel Wrapper Belt GK3CP 2DPU/1DPU

The new GK3CP 2DPU/1DPU is a high-performance belt for steel wrapper (coil winder) applications in the metal industry, where longevity is appreciated as a way to avoid expensive downtime. The belt's endless woven carcass with duroplastic urethane (DPU) covers provides an extremely durable, splice-free conveyor with high cut and impact resistance in a very demanding application, where it is impacted by the leading edges of metal coils.

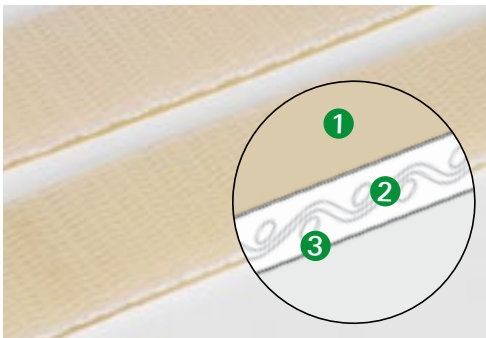

The GK3CP 2DPU/1DPU is particularly suitable for steel wrapper and coil winder applications found in plants producing steel, copper and aluminum rolls:

- Highly cut-resistant high-grip cover
- Manufactured in lengths from 2.5 m to 20.0 m
- Widths available of up to 1.9 m with cut edges, or 2.0 m with uncut edges
- Joining is not necessary since each belt is made endless woven to the required length

High-Performance Steel Wrapper Belt GK3CP 2DPU/1DPU

Key features	Your benefits
<ul style="list-style-type: none"> • Cut and gouge resistant cover with reliable grip 	<ul style="list-style-type: none"> • Durable, maintenance-free processes • Long belt service life • Low lifecycle costs
<ul style="list-style-type: none"> • High-strength endless woven PET fabric 	<ul style="list-style-type: none"> • Low stretch characteristics • Reduced re-tensioning and downtimes • Good belt tracking • Low maintenance costs
<ul style="list-style-type: none"> • Chemical resistant DPU cover 	<ul style="list-style-type: none"> • No hardening or cracking • Long belt service life
<ul style="list-style-type: none"> • Belt design flexibility: cover thickness and materials options 	<ul style="list-style-type: none"> • A customized belt for your specific application

Cross-section

- 1 Conveying side: DPU covered
- 2 Traction layer: PET fabric
- 3 Running side: DPU covered
