

CDT-139 lug drive

This new, monolithic lug drive belt is abrasion-resistant on both sides and easy to clean. It's made of thermoplastic polyurethane (TPU) with strong, aramid polymer cords for long-lasting stability. One side has a smooth adhesive surface and the other has an "orange peel" surface with a lower coefficient of friction than our standard lug drive product, CD.M40. This is the perfect belt for bakeries, dairies, fruit, meat, poultry or vegetable processing.

- Hygienic, easy to clean
- Reversible, cobalt blue on both sides
- Slider bed, carrying roller, and troughed
- Available in widths from 4" to 48"
- Meets FDA food-suitability regulations
- ISO 9001:2008 Quality Standard

CDT-139 lug drive with easy release orange peel surface

With easy-clean lug drive on the smooth side, embedded aramid cords for strength and stability, and improved-release orange peel surface on the conveying side, this belt offers long-lasting durability for your application.

Technical data:

- Thickness: 0.12"
- Tensile force for 1% elongation after relaxation (k1% relaxed) per unit of width: 11 lbs/inch (Habasit Standard SOP3-155 / EN ISO 21181)
- Operating temperature (continuous): Min. -4, Max 176°F

| Feature | Benefits |
|--|---|
| Low coefficient of friction orange peel surface on top | Easy product release |
| Smooth surface on bottom | Hygienic, easy to clean |
| TPU material with aramid cords | Long life, low-stretch |
| Lug drive | Reliable, low-maintenance |
| Custom widths (4" to 48") | Perfect fit in your layout |
| Habasit support and customer service | Design, fabricate, install and maintain |
