

HabaSYNC® Timing Belts

Perfect solutions and customizations for the food industry

Strict hygiene regulations in food production ensure that every link in the food chain is required to guarantee the purity of the products. This is particularly important for surfaces with which food comes into direct contact. With a wide range of timing belts for the food industry, such as open end, truly endless and cast

timing belts, and wide timing belts up to a width of 600 mm, Habasit offers materials compliant with the required FDA and EU regulations and adapts to your individual needs through customization.

No matter which product has to be conveyed we have the right solution for your needs.

Oil and fat resistant

Hydrolysis resistant

Easy sanitation by scrapers, brushes, hot water, steam, normal cleaning chemicals

Good flexibility at low temperatures

Heat resistant

Perfectly smooth surface without any crevices or exposed cords
